(Rows "7 pt. (84 lb.)" and "9 pt.* (99 lb.)" are labeled on the left as **Premium Card**.)*

*7 pt. and 9 pt. are branded as LynxJET® Premium Card.

Product Features

- 96 brightness with true white shade
- Excellent opacity for minimal show-through
- Special surface treatment enhances print quality and improves optical density for pigment inks
- Unique stiffness characteristics to support post converting process
- Available in rolls and sheets

Common Uses

- Direct mail
- Statements
- Transpromotional documents
- Transpromotional postcards
- Transactional business return cards

USPS Postal Regulations

- 7 pt. and 9 pt. are made to caliper and comply with U.S. Postal Service regulations

Environmental Characteristics (Acid-Free)

- Forest Stewardship Council® (FSC®) Certified
- Made with Elemental Chlorine Free (ECF) virgin fiber content
- Sustainable Forestry Initiative® (SFI®) Certified Sourcing
- Manufactured under alkaline (acid-free) conditions for increased longevity and performance

Domtar Performance Commitment LASER GUARANTEED

Domtar's digital and inkjet products are designed and recommended for digital and inkjet production presses, desktop printers (laser and inkjet) and copiers within the limitations specified by the original equipment manufacturer.

We partner with leading OEM's to print test and certify our inkjet products as fit for use on a wide variety of equipment. Domtar's products are optimized for runnability on press and through post-processing. Our surface treatment will enhance print quality compared to untreated stocks when using pigment inks. Our products are suitable for offset pre-print. As always, Domtar stands behind our commitment and our products.
